# dbresale.com – onlineportal for purchasing spare parts and rail vehicles

Via the dbresale.com online portal, DB Resale & Services, the central sales department of Deutsche Bahn that forms part of DB Fahrzeuginstandhaltung offers spare parts, used materials and rail vehicles for purchase – fast and straightforward.

## Spare parts for rail vehicles

From gaskets, complete engines through to bogies including wheelsets - the DB Resale & Services range includes spare parts for a wide range of locomotives and for the bulk of the common wagon types available in the market. DB Resale & Services offers directly materials that are no longer required - from spare parts through to track laying machinery - via its online portal [dbresale.com](http://dbresale.com). Here new offers are posted every day - used, refurbished or as-new. Once registered online, anyone interested can access products quickly and easily. The sales team will be happy to help with special enquiries.

### Long-term spare parts supply

DB Resale & Services also provides long-term spare parts supply on call. To this end, we develop jointly with you a concept for the reliable supply of rail vehicle spare parts - individually tailored to your wishes.

## The portfolio

Resale & Services offers for sale, among other things, materials and rail vehicles from the following segments:

- Shunting locomotives, maintenance cars, ancillary vehicles and rail cranes
- Track laying machinery, track maintenance and overhead line vehicles
- Construction vehicles, forklift trucks and material handling equipment
- General and rail-specific machine tools and workshop equipment
- Emergency power generators and diesel units
- Tank installations, cranes and containers
- Office equipment
- Memorabilia for railway fans
